

Name Rebecca Navarro Smith

Credentials BSRC, RRT

Position Respiratory Therapist

School BS in Respiratory Care at University of Texas Health Science Center at San Antonio

Interests:

I enjoy traveling with my husband, spending time with my family and friends and my two dogs Brady and Chica. When I have down time, I enjoy working out at Orangetheory. I can't forget to mention that I am a die hard San Antonio Spurs fan! Go Spurs Go!

About me:

I am a Texas native born and raised in Uvalde. I have had the pleasure of being a Respiratory Therapist for 18 years specializing in PICU, NICU and pediatrics. After graduating from UTHSCSA I got my start as an RT at Santa Rosa Children's Hospital (now known as Children's Hospital of San Antonio). I've also worked at Methodist Children's Hospital San Antonio, Lucile Packard Children's Hospital at Stanford in Palo Alto, California, Children's Medical Center Dallas. I later moved to Austin to be closer to my family. Here I worked at both Dell Children's Hospital and Ascension Seton Medical Center in the NICU department for 12 years. After 18 years of working in hospitals with babies and children and as a clinical instructor I decided to join the RQS family where I can share my knowledge of respiratory with our patients and their caregivers.

What I do for RQS:

I am a Respiratory Therapist. I provide care and service for our patients. I train caregivers and family members so that they have the knowledge they need to care for their loved ones.
