

Name	Bronwen Surber
Credentials	CRT
Position	Manager Austin/Round Rock

Interests

reading, traveling, spending time with family

A few sentences about you:

I have been a Respiratory Therapist for 18 years and I love it. I have worked in DME for several years and love being involved with patients in their home. Since 2004, I have been assisting Neuromuscular patients with new technology in equipment while keeping them active in their daily lives. It is important to me that they continue to pursue their life without the hindering of their disease.

What I do for RQS

I provide the best possible care for patients in their home
