

Name Keith Sanborn  
Credentials RRT  
Position Owner and President  
School Delgado Community College

Interests (optional ) I enjoy being outdoors! You will find me fishing whenever I can get on the water.

A few sentences about you: I have been a Respiratory Therapist for more than 20 years. I have worked in many clinical settings, including the ICU and the pulmonary function laboratory. In October 2011, I served the first RQS patient. We started as a one man operation! Since then, many more people have joined the team because they believe like I do, that providing great care to patients is both rewarding and important. We love caring for patients!

What I do for RQS

As the owner of the company, I have many hats to wear. My favorite job is and always will be patient care.
