

Hello my name is Jhordan Plasencia,

I attended Alvin Community College where I graduated with an Associate Degree in 2013; soon after I became a Registered Respiratory Therapist.

That same year I joined Southeast Memorial Hermann Hospital as a full-time therapist, where later I took a supervisor role. In 2014, I also joined The Houston Methodist Hospital as a PRN therapist, where I was able to polish my knowledge and patient care in their Surgical ICU.

In the fall of 2017, I decided to follow a new path in my career by joining Respiratory Quality Services (RQS) full time employee to grow further in my career and specialize in the care of patients with ALS.
