School

Respiratory Therapist  
Park University

Interest

I really enjoy spending time with my wife and kids when not at work. Love to cookout and relax in our backyard and lightup the firepit. I enjoy listening to music and really enjoy playing the drums. I also enjoy pretty much all sports and having fun!

A few sentences about you

I have been in healthcare for over 13 years. I have had the pleasure of serving under several capacities in the hospital setting while building relationships with various individuals that have made a positive impact in my life. I continue to be engaged in the respiratory community by consistently staying active in the Texas Society for Respiratroy Care West Region providing continuous education to respiratory therapists in hopes we improve our care for patients.

What I do for RQS:

I LOVE MY JOB and what we can do for our patients!  
With a compassionate heart, I represent one of the best companies out here to provide the best service we can deliver to every patient and their families we have the pleasure of interacting with.
