A few sentences about you:

I have been a respiratory therapist for 19 years. I started out in Adult care at The Methodist hospital taking care of acute and ICU patients. Then I went to Texas Children's where I worked for 14 years in various roles. I was a NICU transport therapist, Charge Therapist and Shift Manager. I enjoy working with patients and their families. I find it very rewarding and humbling to give the best care to my patients and show them empathy and support.

What I do for RQS:

Like everyone at RQS, I take care of patients. Our patients are the #1 priority. I want to help the patients and their families feel more comfortable with their respiratory needs.
