

Name Brian Timon
Credentials BSRT, RRT

Position Director of Operations
School University of Texas Medical Branch
Interest I love the outdoors and pretty much any sport,
however my main interests lie with being a husband
and father of two very active boys.

A few sentences about you I've been a Respiratory Therapist for over 20 years and
have held many positions in that timeframe.
With all the different positions I've had, there was
and always has been a draw to be at the point of care
with my patients. I joined the RQS Team because
I truly believe this company is making an enormous
impact in the daily lives of the patients we serve.

What I do for RQS First and foremost, I am here for our patients! It's
what we all do and what we love to do. I am also
going to do my best to continue to expand the
arms of RQS so our quality service reaches as many
patients as possible.
